Art Unit: 2856

The following is a statement of reasons for the indication of allowable subject matter: Prior art does not teach "tables" which are controlled for movement in "each of six degrees of freedom", in combination with remaining claim limitations. While Borg's couplings 110, 112 each do in fact undergo the claimed 6 degrees of movement, those couplings 110 and 112 do not provide a suggestion of a flat horizontal supporting surfaces (as illustrated in Applicant's Drawings), and thus may not properly be classified as tables. Claim 3 is allowable for the same reason that claim 1 is allowable.
